🐙 Kenn3o3

Education

BSc City University of Hong Kong, Bachelor of Computer Science AUG 2021 – Present

- Completed Artificial Intelligence Study Stream.
- CGPA: 3.66/4.3, Major GPA: 3.78/4.3
- **AI Courses:** Machine Learning (A), Artificial Intelligence(A+), Fundamentals of Data Science (A+), Computer Vision and Image Processing (A)

Work Experience

DataAnt Group Limited, part-time Software Developer Kowloon, Hong Kong
AUG 2024 – Present

- Developed navigation algorithm on quadruped robot using Robot Operating System (ROS 2) and Isaac-Sim simulator.

NICS, Oak Ridge National Laboratory, UTK, Undergraduate Researcher Tennessee, United States
MAY 2024 – AUG 2024

- Researched topological map navigation algorithm for Image-Goal Navigation for legged robot using Habitat-sim and Isaac-sim. Supervised by Dr. Kwai Wong.
- Funded by the National Science Foundation.

The Bank of East Asia, Limited, Student Programmer Kwun Tong, Hong Kong
JUL 2023 – MAY 2024

- Build backend functions using JAVA and SQL on linux.
- Automate project management process including form fill in using Selenium.
- Perform software system maintenance using Git.
- automate Software Development using Jenkins.

Study Experience

Generative Adversarial Networks (GANs) Specialization from Coursera Certificate [🔗](#)
Natural Language Processing (NLP) Specialization from Coursera Certificate [🔗](#)
Deep Learning Specialization from Coursera certificate [🔗](#)
Machine Learning Specialization from Coursera certificate [🔗](#)

Awards

Dean's Lists July 2024
Semester B 2022/23, Semester A 2023/24 and Semester B 2023/24

Skills

Machine Learning & Deep Learning with pytorch & matlab & tensorflow
Programming Languages C/C++, Java, Python, SQL, Java Script, HTML, CSS
